15. Remarks: This is a temporary application intended solely to allow time for the State Engineer to approve the permanent change applications discussed below and to allow Dry Lake to use the existing well-site construction throughout the approval process. We currently are in contact with protestors of our permanent change applications to obtain their withdrawal of said protests. Water is to be used within Apex Industrial Park using wells BM-1 and BM-2 that were constructed via temporary permits #67139-T and 67141-T which expired on April 8, 2002. Applications #68350-68353 to permanently change the points of diversion for permits #66163-66166 have been filed in the State Engineer's Office to match existing BLM permits. This temporary application corresponds directly to permanent change application #68353 and Temporary Permit #68652-T, approved April 9, 2002 and set to expire on April 8, 2003..
